GOOD WORK DONE BY ROAD COMMITTEES

The big roal proposition reached a successful climax here last Saturday, when the Board of Supervisors took the preliminary steps in accepting the State aid in building roads in Tazewell county. THE "MACHINE CANDIDATE"

As said before, we hear a good deal of talk about "the candidate of the machine," "the organization's candidate" and similar designations, when speaking of Judge Mann's candidacy. We repeat, we know nothing of the truth of these statements. The charge that Judge Mann's candidacy is backed by "the machine may be true, but up to this time there is no proof of the statement as far as we have seen, further than that certain prominent men, some of them members of "the ring," so called, are promoting his nomination, which they have the right to do.

However-and this is the sole object of this article-we arise to ask a question for information: Hasn't the organization a right to its choice of a candidate? It is readily admitted that an organization-state organization-such as is meant by "the machine" has no right to use its official power to thwart the willof the people. Neither has a private, single, official, but hasn't the machine the right to say that it prefers -endorses, if you wish, a certain man for a cerain place? It is readily The World and Indianapolis News box at Jacksons drug store. The admitted again, that no political doesn't turn out more successfully kidney secretions became clear and gage the state offices, that is, promise to give the place "next time" to a candidate if he will with draw this time in favor of some other candidate, and by this sort of legerdemain perpetuate itself in office. This sort of thing is frequently done. But this is entirely different from the organization giving its support to a candidate in any particular campaign. It is an almost universal custom for the administration-state and national, to support a certain E. Jackson Richlands Phar., Richcandidate. Mr. Roosevelt nominated lands, Va. Mr. Taft. The Ring has been perpetuating itself in office in almost every instance when such a thing is possible. Is this right or wrong? Is this legitimate politics? If this present state machine is "downed." won't the next set organize "a machine" and try to perpetuate themelves in office?
